

INTERVIEW SUMMARY

On June 17, 2008, the undersigned attorney and the Examiner discussed the amendments listed above. The Examiner preliminarily agreed that the amendments would resolve clarity objections which the Examiner raised for claims 1 and 12. The amendments match those presented by the Examiner outside of a change back from "securing a die core" to "securing the die core" in claim 12 which the Examiner and Applicants agreed would be more appropriate in light of an already present antecedent basis.
